Tamper-proof email archiving that keeps your business communication safe & compliant

Netcore Mail Array archiving solution is designed to help your organization retain valuable communication, comply with legislation like Sarbanes Oxley Act (SOX) and Freedom of Information Act (FOIA). It allows an organization to be its own custodian and retrieve emails at a fingertip, ultimately saving them from getting into any legal litigations.

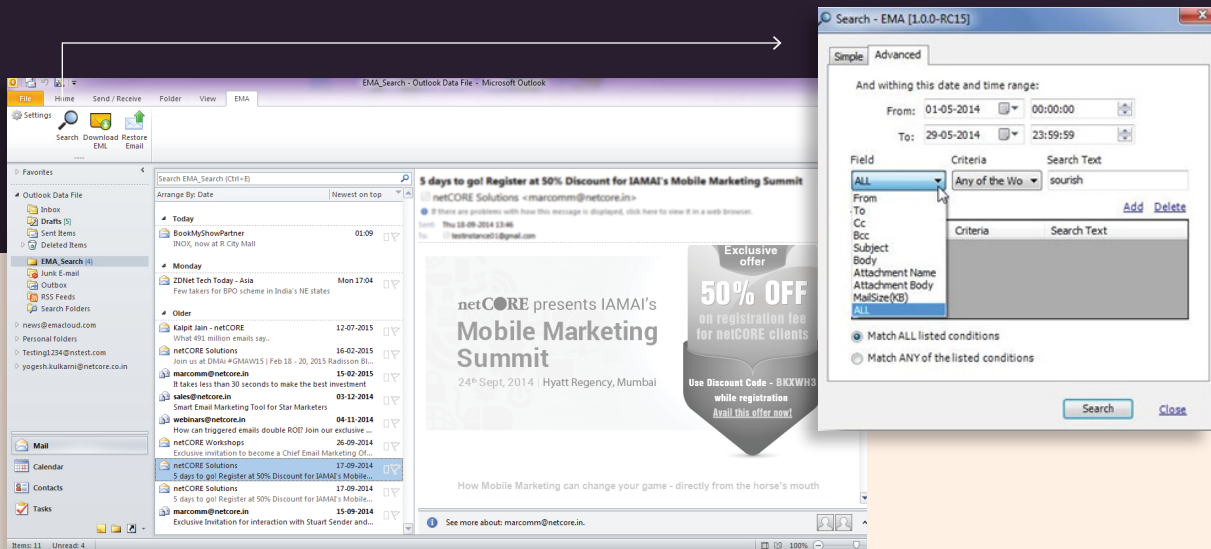

MailArray offers a complete, flexible email archiving solution for organizations of all sizes.

Direct Access from Outlook

Use Mail Array to seamlessly access archived mails in Outlook.

With this unique feature, you can retrieve decades old emails within seconds.

How it benefits your business

Efficient Email Management by enabling the ease of faster search and retrieval, also provisioning department heads to retrieve their team members' emails.

eDiscovery & Legal Hold furnishes any mails to Audit & Legal team within seconds, saving you from litigation hold.

Efficient Storage Management by storing your de-duped emails in a Single Instance Storage (SIS), freeing your email server space & usage.

Deployment Flexibility with cloud or in-house archiving to help you transit or scale as your needs evolve.

Increased Productivity & Operational Efficiency by enabling employees to find their emails at their fingertips, which in-turn lessens the burden of IT to manage those internal systems.

What our customers say about us

“

Choosing Netcore's EMA has matched our mission of being the fastest local search engine. Its access feature helps increasing our IT efficiency by fetching years older email communication in just few seconds.”

Mr. Sandipan Chattopadhyay,
Chief Technology Officer

Justdial

“

We discovered not only product and it`s unbeatable features beyond that service and consulting us as a business partner made Netcore score huge mark in our competitive survey. All required functionality was provided at better price. We have been using Netcore Email Security service, enterprise mail server and NOW Compliance based email archival”

Mr. Srinivasan Sundarajan,
General Manager - IT
